## What is the **Black Rock Yearbook?**

In 2007, The Black Rock Yearbook started as a theme camp curating a rather large photo project in Black Rock City - to create a yearbook reminiscent of our high school days. Our goal was to capture the beauty of the citizens of Black Rock City.

We have a few guiding rules for our Yearbook -

- 1) Only "Playa" names to be used for the photos
- 2) We strive to include everyone who got a photo.

This book marks the first time we are offering the Black Rock Yearbook as a printed hard back book. We hope that thumbing through the many photos and personalities in this book for years to come will give you a sense of the magic and creativity that Burning Man thrives on.

## What is **Burning Man?**

Every year 70,000 people spill onto the dry lake bed that is Black Rock City (aka Burning Man) for one week to create a temporary city based on 10 principles - Radical Inclusion, Gifting, Decommodification, Radical Self-Reliance, Radical Self-expression, Communal Effort, Civic Responsibility, Leaving No Trace, Participation and Immediacy.

The 2014 theme for Burning Man was "Caravansary" - A silk road infused theme playing up the melting pot of ideas, technology, travel, cultural-exchange and styles that make up the city. Over the course of our week out on playa, 1,400 people came by our camp. We came home with over 20,000 photographs to sort through, hand-select, touch-up and process.
